

CODE WORD

This procedure is used to clarify provisions of the Harris County Fire Code. It's sole intent is to clarify what is acceptable practice.

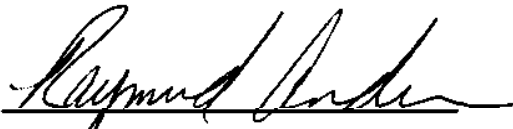

Issue Date: 10 March 2005

Subject: **Certification of Fire Protection Systems**

Section of Regulation: Section 104.2.1 Harris County Fire Code

Question: Section 104.2.1 states that a licensed Engineer or Architect must stamp Fire Protection drawings. Is the county excluding State approved RME's, APL's and RAS's from stamping and certifying these types of drawings?

Answer: The licensed Engineer or Architect must sign and seal the Fire Code Compliance Review Sheet and his architectural drawings. Seals and signatures from licensed fire protection specialists will be accepted for plans of fire protection systems.
